Mystery & Intrigue

with Mylar a Kathy Guthrie Workshop

LANTZVILLE ART GALLERY

In this exciting new workshop you will experiment with mixed media on layers of clear mylar (acetate) creating works with mystery and intrigue. Using a variety of mediums; acrylic paint, gesso and collage. The brushes, pens and rollers you use will create expressive marks on sheets of mylar that are then layered. You will need to bring a black and white photocopied enlargement of a face to use. (20" x 20") We will also discuss how to assemble your finished layers to hang at home. See examples on the "Painting Page" of Kathy Guthrie's website: www.kathyguthrie.com or in-gallery.
